

Foam Cup Octopus!

MATERIALS NEEDED

- Yarn
- Construction paper
- Foam cup
- Markers
- Scissors
- Glue or Glue stick
- Googly eyes

ESTIMATED TIME: 15-20 min

STEPS

1. Using the scissors, make 8 holes around the top of the cup.
2. Cut out 8 pieces of yarn, they can be any size you want, but don't make them too short. (You can use pipe cleaners if you don't have yarn.)
3. Run a piece of yarn through a hole and tie a knot so it doesn't fall out. Repeat this for all holes and yarns.
4. Glue your googly eyes onto the cup. Wait for it to dry.
5. Once you've done that, you can start adding designs to your octopus.
 - You can draw a smile with a marker.
